

Name	: RIBWAR SAED	Sample No	: 1255191
Idendity No	: 102298	Sample Date	: 20-12-2023 14:33:33
Birth Date	: 20-12-1985(38)	Report Date	: 12/20/2023 5:31:40 PM
Gender	: Male	Doctor	: Ibrahim Muhammed

MRI OF THE RT KNEE JOINT

MRI Findings:

- **anterior horn lateral meniscus root tear seen**
- **Low grade partial ACL tear seen**
- **Grade I degenerative changes seen in posterior horn of medial meniscus**
- Normal MRI appearance of PCL, collateral and patellar retinacular ligaments as well as the quadriceps and infra patellar tendons.
- **Mild intra articular joint effusion is noted.**
- Normal marrow signals of the examined bones and the overlying articular cartilages.
- Intact peri-articular musculature with preserved intervening fat planes.
